A series of comprehensive Ophthalmology webinars

YO Webinars

Paediatric Ophthalmology and AI in Ophthalmology

Part 1 - Paediatric Ophthalmology
Date: Wednesday, 31 July 18.00hrs CEST
Time: 18:00-19:30hrs CEST

Do you also think paediatric ophthalmology can be difficult to tackle?... as we've all learned "children are not small adults!" Up your game with our upcoming webinar! Young, experienced ophthalmologists will break down important topics like "how to examine children", "strabismus and cranial nerve palsy", and "The myopia pandemic and how to tackle it". Three speakers will each cover each session in detail, followed by a discussion round with our experts where you'll get a chance to ask your questions. Don't miss this chance to learn and connect!

Moderator: Moderators Kirstine Bolette Boysen, (Denmark) & Lana Datuashvili, (Georgia)

Two eyes or four eyes? Reviewing the pediatric eye exam and when to prescribe glasses – David Ramirez, (USA/AAO)
Myopia Pandemic - how to prevent – Trine Møldrup Jakobsen, (Denmark)
Title tbc - Speaker tbc
Discussion/Q&A
Registration is complimentary for the YO webinar

Part 2 - AI in Ophthalmology

Curious about how AI is changing eye care? Join our *AI in Ophthalmology webinar*, where young experts in the field will explain how new technologies are used in *diagnostics*, *research,* and *patient care*. Three speakers with research background will cover the topics. The session ends with a discussion between the speakers and the audience where you can ask questions and get involved in the conversation.
Hope to see you soon, your chatGPT.

Moderators: Kirstine Bolette Boysen, (Denmark) & Lana Datuashvili, (Georgia)

The role of AI in patients' information – Nathalie Eriksen, (Denmark)
AI in Research: is AI ready to write Research Articles/Reviews/Clinical Trials?- Grayson Armstrong, (USA/AAO)
Ophthalmology Disrupted: Embracing AI - Ivan Potapenko, (Denmark)
Discussion/Q&A
Registration is complimentary for the YO webinar
